Industrial Pump Housing

Vicor Manufacturing — Product Datasheet

Specifications

Material:	Ductile Iron
Max Pressure:	16 bar
Port Size:	DN50
Operating Temp:	-10°C to 120°C
Finish:	Epoxy Coated

Frequently Asked Questions

Q: What pump series is this housing compatible with?

A: Compatible with our standard DN50 centrifugal pump series; confirm model number for exact fitment.

Q: Is the housing pressure-tested?

A: Yes, each unit is hydrostatically tested to 24 bar (1.5x rated pressure) before dispatch.

Q: What port connection type is used?

A: Flanged DN50 ports per EN1092-2, PN16 rating.
